From 2021 the Fehmarnbelt Fixed Link - Northern Europe’s biggest infrastructure project - will connect Denmark and Germany along the shortest possible route. The Fehmarnbelt region – a region stretching from northern Germany across Denmark into southern Sweden – will be exceedingly interconnected by the tunnel. This way, new opportunities for living, working and leisure will emerge for its nine million inhabitants. New jobs will be created, new businesses will be founded, existing companies will have strong incentives to move to the region, and scientific collaboration will increase. The tourism industry will also profit from the ability to create new and innovative offers and attract new visitors to the region.

The Fehmarnbelt Days are about exploring all of these opportunities. In line with the vision behind the Fehmarnbelt Fixed Link, this year’s Fehmarnbelt Days event has been themed Creating Connections.

For three days, industry experts, politicians and citizens from Germany, Denmark and Sweden will come together in Copenhagen to explore the opportunities that lie within an interconnected Fehmarnbelt Region. A number of conferences and events are dedicated to key topics such as infrastructure, tourism, and business as well as the labour market, transportation, education and research. Existing cooperation will be strengthened and new initiatives will be formed to fully harvest the benefits of an interconnected region after 2021.

The organising partners of the Fehmarnbelt Days believe that the wide range of conferences, seminars and events will offer all participants ample opportunities for engaging talks, exchange of ideas and networking. Our hope is for you to create the professional and personal connections that will form the basis for a strong and prosperous Fehmarnbelt Region of the future.

The organizing partners welcome you to Copenhagen and wish you three successful days at the Fehmarnbelt Days 2014!

CLAUS F. BAUNKJÆR
CEO of Femern A/S

NICOLAUSS LANGE
Chairman of the Fehmarnbelt Business Council

REINHARD SAGER
Chairman of the Fehmarnbelt Committee

CARSTEN HANSEN
Minister for Housing, Urban and Rural Affairs, and Minister of Nordic Co-Operation

LENE ESPERSEN
Chairman of Baltic Development Forum

ANKE SPOORENDONK
Chairman of STRING
As an international consortium the FBBC plays a coordinating role and serves as a platform on which all interested in the project can coordinate their respective projects and participate in joint activities. Representing about 400,000 companies through its members, the FBBC is truly “the voice of business” and is therefore the natural contact point for government and administration in cross border issues on the axis Hamburg-Lübeck-Copenhagen-Malmö.

The Ministry of Housing, Urban and Rural Affairs was established in 2011. The ministry is responsible for housing, including the real property data administration, urban development and of development in sparsely populated rural areas. The Ministry has since 2012 through the establishment of an interministerial Femern Belt Forum been the entrance point to the Danish Government in regards to the development of the Femern Region with the exception of construction and infrastructure.

Femern A/S is tasked with designing and planning of a fixed link between Denmark and Germany across the Fehmarnbelt. Femern A/S is a subsidiary of the Danish, state-owned Sund & Bælt Holding A/S, which has experience from the construction of the fixed links across the Great Belt and the Øresund. www.femern.com

The Fehmarnbelt Committee is a cross border Danish-German work- and coordination cooperation in the Fehmarnbelt region. The committee is composed of Danish and German politicians and representatives from municipalities and county authorities as well as representatives from organisations and associations. The goal of the Fehmarnbelt Committee is to position the Fehmarnbelt region as a destination on the axis of development between Copenhagen/ Malmö and Hamburg and to ensure an integration process through recommendations and support of cross-border activities.

www.fehmarnbelt-portal.de/fehmarnbelt-komitee

Baltic Development Forum

Baltic Development Forum is the leading think-tank and network for high level decision-makers from business, politics, academia and media in the Baltic Sea Region. Baltic Development Forum’s network comprises more than 8000 individual from private/ public sectors, academia and media from and outside the Baltic Sea Region. Baltic Development Forum provides platforms that bring together actors from diverse sectors and from across the Baltic Sea Region, ensuring better cooperation, coordination and coherence. We influence regional policy and facilitate collaboration across regions, sectors and levels of decision making. BDF hosts the Secretariat for the Fehmarnbelt Days 2014. www.bdforum.org
CREATING CONNECTIONS

The focus of Fehmarnbelt Days 2014 is “Creating Connections”. Key areas to be addressed include infrastructure, tourism, business, the labour market, transport and logistics, and education and research. The Fehmarnbelt Days will also host a variety of social and cultural events in the heart of Copenhagen.

THE FEHMARNBELT REGION

The Fehmarnbelt Region spans a diverse geographical area. Not only does the region reach through three different national states, it also encompasses many different sub-regions, each one with its own hallmark. The Fehmarnbelt Region stretches from northern Germany via Denmark to southern Sweden, and is home to 8.5 million inhabitants.

8.5 MILLION PEOPLE CONNECTED

A direct fixed link will connect millions of people and offer opportunities for people, business, and culture. The Fehmarnbelt Fixed Link is the key to a prosperous and transnational region. Visiting your neighbours will become easier: Danes, Swedes and Germans will be able to interact more easily and more frequently. With the realization of the Fehmarnbelt tunnel, Scandinavia and Europe will grow closer together; in business, culture, infrastructure, tourism, green energy, research and development, through a common labour market, and many more fields.

TRADE AND TOURISM

The Fehmarnbelt tunnel is about job creation; better interconnectedness strengthens the whole region and stimulates job creation.

With a high-speed rail connection the Fehmarnbelt tunnel will make rail freight more attractive, leading to more companies transporting their goods by rail - something which will benefit the environment. Thus, the Fehmarnbelt fixed link will be the green corridor into central Europe/into Scandinavia.

The Fehmarnbelt region offers great potential for new tourism from both international and regional markets. Tourism in the Fehmarnbelt region is already increasing and will become even more international once access is made even easier by the Fehmarnbelt fixed link.

THE FEHMARNBELT REGION IN FIGURES

Fixed Link Construction costs:
EUR 5.5 bn

Repayment period:
39 years

Travel time Hamburg-Copenhagen (2021):
3 h

Number of inhabitants (2013):
8,462,000

### SEPTEMBER 30 | SESSION DESCRIPTIONS

**Scientific cooperation around large-scale research infrastructures and their regional development**

**Venue:** Radisson Blu Scandicavia Hotel, Amager Boulevard 70

**Organisers:** Deutsches Elektronen-Synchrotron DESY, KTH Royal Institute of Technology, Science Link Network, Röntgen-Ångström Cluster

Existing and newly constructed research infrastructures such as the European X-Ray Free Electron Laser in Hamburg and the European Spallation Source (ESS) in Lund are unique knowledge hubs to foster scientific cooperation, education and innovation in the Fehmarnbelt region and the whole Baltic Sea area. Transnational cooperation platforms such as the Röntgen-Ångström Cluster or the Science Link Network are strong indicators that the region is growing together. This panel of high-level science and innovation experts will discuss how the region has already developed and will continue to be further shaped - through scientific infrastructures, related research projects and local innovation.

**Speakers:**
- Pia Kinhult, Governor of Skåne Region, Malmö
- Dorothee Stapelfeldt, Second Mayoress of the Free and Hanseatic City of Hamburg and Senator for Science and Research
- Holmut Dosch, Chairman of the DESY Board of Directors, Hamburg
- Ulf Karlsson, KTH Royal Institute of Technology, Science Link Network
- Robert Fiedelhans’l, Head of the Neils Bohr Institute, Copenhagen

**Early Arrival Reception**

**Venue:** German-Danish Chamber of Commerce, Kongens Nytorv 26, 3rd Floor

**Organisers:** European Commission, German-Danish Chamber of Commerce, Baltic Development Forum

An informal event with opportunities to mingle, enjoy a buffet and warm up for the events of the coming days.

**16.00-17.00**

- **Fehmarnbelt Business Council**
- **Fehmarnbelt Business Day**
- **“Knowing Fehmarnbelt”**

**Venue:** German-Danish Chamber of Commerce, Kongens Nytorv 26, 3rd Floor

**Organisers:** European Commission, German-Danish Chamber of Commerce, Baltic Development Forum

An informal event with opportunities to mingle, enjoy a buffet and warm up for the events of the coming days.

**14.00-15.00**

- **New Growth and New Possibilities**
- **Lord Mayor’s Reception**

**Venue:** German-Danish Chamber of Commerce, Kongens Nytorv 26, 3rd Floor

**Organisers:** European Commission, German-Danish Chamber of Commerce, Baltic Development Forum

An informal event with opportunities to mingle, enjoy a buffet and warm up for the events of the coming days.

**15.30-16.00**

- **Fehmarnbelt comes to Rådhuspladsen**

**Venue:** German-Danish Chamber of Commerce, Kongens Nytorv 26, 3rd Floor

**Organisers:** European Commission, German-Danish Chamber of Commerce, Baltic Development Forum

An informal event with opportunities to mingle, enjoy a buffet and warm up for the events of the coming days.

**16.30-17.00**

- **Bus shuttle from Tivoli Congress Center to Rådhuspladsen**

**Venue:** German-Danish Chamber of Commerce, Kongens Nytorv 26, 3rd Floor

**Organisers:** European Commission, German-Danish Chamber of Commerce, Baltic Development Forum

An informal event with opportunities to mingle, enjoy a buffet and warm up for the events of the coming days.

**17.15-17.30**

- **Bus shuttle from Tivoli Congress Center to Rådhuspladsen**

**Venue:** German-Danish Chamber of Commerce, Kongens Nytorv 26, 3rd Floor

**Organisers:** European Commission, German-Danish Chamber of Commerce, Baltic Development Forum

An informal event with opportunities to mingle, enjoy a buffet and warm up for the events of the coming days.

**18.30-20.30**

- **Lord Mayor’s Reception**

**Venue:** German-Danish Chamber of Commerce, Kongens Nytorv 26, 3rd Floor

**Organisers:** European Commission, German-Danish Chamber of Commerce, Baltic Development Forum

An informal event with opportunities to mingle, enjoy a buffet and warm up for the events of the coming days.
10.00 - 12.30
Venue: Tivoli Congress Center. Room: Congress Hall
Organiser: STRING

A Fehmarnbelt Days Political Conference, organized by STRING: The event will address the potential for economic prosperity after the new infrastructure between Copenhagen and Hamburg, and the collaboration between forward-thinking societies where environmental concerns are a priority. Leading politicians from the EU, Sweden, Denmark, Hamburg and Schleswig-Holstein will give different perspectives on the strengths and opportunities of the corridor specifically, the new quality of eco-friendly mobility, renewable energy, and future-oriented workplaces.

Speakers:
- Carsten Hansen, Dorothee Stapelfeldt, Magnus Heunicke, Torsten Albig, Anke Spoorendonk, Steen Lykke, Michael Svane

9.00 - 10.00, followed by a closed session
10.00 - 12.30
Venue: House of Industry, City Hall Square in Copenhagen
Organiser: Dansk Industri – Confederation of Danish Industry

Come and hear about the possibilities for your company in the construction of the Fehmarn Belt Fixed Link. Come and hear other companies share their experiences from similar mega-projects. Come and gain insight into the technical standards and possibilities to become a supplier. Come to a strong industry event in the House of Industry, City Hall Square in Copenhagen. The event consists of an open part (in English) 09.00 – 10.00, and a closed part (in Danish and for members of DI only) 10.00 – 12.30.

Speakers:
- Bo Stærmerose, CEO of Juliana A/S and Chairman of the Manufacturing Industry of Denmark
- Ajs Dam, Communications director, Femern A/S
- Steen Bobach, Bobach Staalentreprise A/S
- Steen Lykke, Technical Director, Femern A/S
- Jesper Nordby, Vice President, MT Højgaard A/S

9.05 - 12.45
Venue: Meeting place: Tivoli Congress Center, registration desk
Organiser: Fehmarnbelt Business Council (FBBC)

Dress Code Event:

In addition to the FBBC Business Conference “Knowing Fehmarnbelt” the FBBC and its members offer a bus excursion in the context of the “FBBC Business Day” that is free for all participants of the Fehmarnbelt Days 2014. The Øresund Bus Excursion starts at 09.45 as the foyers of the Tivoli Congress Center and participants will return at 12.45. Participants of the DI Event “New Growth and New Possibilities” 09.00 - 10.00 have the option to board the bus at 10.00 in front of Industriens Hus.

Venue: Tivoli Congress Center Room: Congress Hall
Organiser: Fehmarnbelt Business Council

Meet, greet and network with the participants of the Fehmarnbelt Days 2014. The Networking Lunch will take place jointly with the Networking Village activities, where companies from around the Fehmarnbelt Region will showcase their initiatives of cross-border cooperation. During the lunch you will have the opportunity to meet participants from international businesses, high level professionals and government officials representing the Fehmarnbelt and Baltic Sea Region countries. European Union projects and other regional initiatives will also be present and will help fuel multi-level partnership development.

Venue: Tivoli Congress Center, Networking Village Stage
Organiser: Tivoli Congress Center, Networking Village

This year’s FBBC Business Conference “Knowing Fehmarnbelt” is focusing on the benefits and opportunities that the Fehmarnbelt Fixed Link provides for businesses in the entire Fehmarnbelt region and beyond. High-level business representatives will speak about their experiences and activities concerning cross-border cooperation as well as strategic decisions taken in regard to the future Fehmarnbelt Fixed link and the aspects that make the region between Hamburg/Lübeck and Copenhagen/Malmö such a unique business region. In addition to the overall business opportunities and other interesting topics a focus of the conference will be on logistics, approaching new markets and cross-border apprenticeships/education.

Speakers:
- Nicolas Lange, FBBC Chairman
- Jesper Bremholm, Vice President, Production & Logistics
- Henrick Wegener, Executive Vice President and Chief Accounting Officer, Technical University of Denmark
- Michael Svane, FBBC Vice Chairman

13.30 – 14.30
Venue: Tivoli Congress Center, Networking Village Stage
Organiser: Tivoli Congress Center, Networking Village

The Fehmarn Belt Growth Center is a national initiative to exploit the potential for growth related to the construction of the fixed link under Fehmarn Belt. How can we successfully create lasting growth and jobs through innovation activities before, during and after the construction of the fixed link under the Fehmarnbelt? The two Danish innovation Networks...
PROGRAMME

InnoBYG and the Transport Innovation Network invite companies, knowledge- and educational institutions, organizations and other interested to discuss general and with a special focus on construction and transportation. The purpose is to inspire the future national efforts to support the Fehmarn Belt Growth Center, which will create activities for 3 – 400 companies with an international focus.

Speakers from: The Transport Innovation Network | InnoBYG | Danish Innovation | Network of Energy Efficient and Sustainable Construction | Danish Agency for Science, Technology and Innovation | Region Sjælland

There is a need for developing new opportunities, actions, organizations and other interested to discuss general and with a special focus on construction and transportation. The purpose is to inspire the future national efforts to support the Fehmarn Belt Growth Center, which will create activities for 3 – 400 companies with an international focus.

Speakers from: The Transport Innovation Network | InnoBYG | Danish Innovation | Network of Energy Efficient and Sustainable Construction | Danish Agency for Science, Technology and Innovation | Region Sjælland

How do we attract young tourists to the Fehmarn Belt Region?

Venue: Tivoli Congress Center, Room: Harlekin
Organiser: Femhambelt Committee

There is a need for developing new opportunities, activities and events that are attractive to young adults, both for those living in and outside the region. Young adults are key for the tourism and recreational sectors with young adults in mind? What role can digital media play in developing the tourist sector with young adults in mind? What are the mega trends of tomorrow’s tourism or experience a green vision for transportation – you might find a new favourite dish. This activity is presented by TIM Fehmarnbelt Project (Interreg), Ostsee-Holstein-Tourismus e.V.

Human Table Soccer Tournament: Who will be regional champion? 14.45-17.00

Discover the Fehmarnbelt region on Rådhuspladsen. Visit information tents and learn more about the Fehmarnbelt tunnel - Northern Europe's biggest infrastructure project. Children are invited to discover the tunnel by ‘jumping under the Fehmarnbelt’ in a giant bouncing castle. Growups can taste regional gourmets and learn more about the tunnel operation. Femern A/S.

Free regional specialties to try. 14.00-17.30

The Fehmarnbelt Tunnel is coming to Copenhagen. The planning company of the Fehmarnbelt tunnel, Denmark, City of Copenhagen, Wonderful Copenhagen and STRING.

Extenstive information on all aspects of the tunnel will be presented and handed out. Special information materials for children will also be available. This activity is presented by Femern A/S.

Free shuttle busses: 16.45  Tivoli Congress Center - Rådhuspladsen/Town Hall Square 1715  Tivoli Congress Center - Rådhuspladsen/Town Hall Square

The aim of the Green STRING Corridor project is to promote the potential of innovative transport and logistics solutions for developing a green transport corridor between the Öresund Region and Hamburg, and capitalize on the benefits of the fixed Femern Belt link for the cities and regions along the corridor. The project will be finalized in November 2014, and this event serves as the closing conference for the project. As such this conference will communicate the project’s most important findings, and hand-over the key-messages and recommendations to the STRING Network, the political cooperation of regions along the corridor Öresund-Hamburg.

Speakers:
Jens Stenbæk, Chairman of the Regional Council in Region Sjælland
Connie Hedegaard, European Commissioner for Climate Action, The European Commission
Sten Wandel, Professor, LU Open Innovation Centre, Lund University
Dirk Rompf, Member of Board, DB Netz AG
Jens Ole Kaslund, Project Director, Rail Net Denmark
Leif Gjesing Hansen, Project Manager, Green STRING Corridor
Henrik Appel Esbensen, Member of the City Council of Copenhagen and Chairman of STRING in Autumn 2014

The Scandinavian 8 Million City is about connecting Scandinavia’s most important metropolitan areas and knowledge environments, turning them into one collective and strong innovation and labour market area. The aim of this conference is to showcase the key findings from a wide range of feasibility studies and discuss future collaboration possibilities. The conference is organised back to back with the Green STRING Corridor project morning event, and the 8 Million City session will start with a common lunch. We encourage participants to join for the full day.

Speakers:
Henrik Skovby, Executive Chairman, Dalberg Group
Flore Nathanael Daub, Project Manager, The Scandinavian 8 Million City
Sten Hansen, Infrastructure advisor, Region Skåne
Birgitta Hellgren, Head of transport planning in the City of Gothenburg
Lennart Sæther, Work package leader for High Speed Rail
NETWORKING VILLAGE
Bandholm Hotel (BB86), newly renovated in 2010-2013, is situated in a beautiful harbour town, only 20 minutes from Rødby, with old romantic houses, and is Lolland/Falster’s only 4 star hotel. In 2014 it was rated Denmark’s 7th most popular hotel at trivago.com. We offer standard and luxury accommodation, spa & wellness and the most beautiful conference facilities in old English style. Our saying is “Bandholm Hotel – A nice place to stay – Every guest is special to us and we look forward to serving you”.

The Tourism Innovation Management Fehmarnbelt (TIM Fehmarnbelt) is a cross-border business-to-business tourism co-operation. The aim of the project is to inspire the tourism sector to develop innovative business ideas, structures, and cross-border co-operations, so that we can strengthen the Fehmarn Belt Region from a tourism perspective. The project is financed by the EU Interreg programme, and is led by Ostsee-Holstein Tourismus e. V. and Østdansk Turisme.

Philips Lighting is a worldwide supplier of lighting solutions for the professional market. We have a strong position in all outdoor lighting segments covering road and area lighting, tunnel lighting and city beautification. Philips Lighting manufactures own LED’s and electrical equipment as well as control systems. For years, Philips Lighting has delivered complex lighting solutions across the world. Our Total Tunnel system covers best in class LED luminaires in high quality stainless steel, and reliable and easy to commission control system.
FEMERN A/S is the project company of the 18 km long Fehmarnbelt Tunnel, connecting Rødbyhavn in Denmark and Puttgarden in Germany. Construction works for the world's longest immersed tunnel are set to begin in 2015. Femern A/S is a subsidiary of the Danish, state-owned Sund & Bælt Holding A/S, the owner of the companies responsible for the realisation of the fixed links across the Great Belt and the Øresund.

Intelligent Energy Region is a project supported by the EU programme INTERREG 5A. The project aims to provide an improvement of energy efficiency in the private and public sector in the Fehmarnbelt region. It is based on transnational involvement of partners’ employees who will act as initiators and multipliers with the mission to promote, plan and execute projects to enhance energy efficiency in their organisations. With the implementation of the initiative-partner projects, the companies further qualify to compete for the annual “Fehmarnbelt-Energy Award” (FEA).

The EU successfully facilitates territorial cooperation by launching the EU Interreg funding programmes, tied to special geographic areas such as cross-border, trans-regional and interregional regions. The programme regions do not automatically correlate to functional areas of regional dynamics. Consequently, the Interreg working group of STRING organises an “Interreg Programme Cooperation Booth” at the Fehmarnbelt Days Networking Village. Information about all relevant Interreg programmes will be provided jointly in order to lead to future synergies and to get the best impact out of all programs for the entire region from Hamburg via Schleswig-Holstein and Region Zealand to the Øresund Region.

FESPA is a professional network comprising 45 local and regional firms that are cooperating in order to be able to deliver a large range of service functions and products needed by the main contractors, subsidiary suppliers and other participants involved in the construction of the Femern Belt tunnel, as well as other major building projects planned for the Zealand region.

The Danish Business Authority is an agency under the Ministry for Business and Growth and offers services to both Danish and foreign companies. The Internal Market Centre (Indre Markeds Center) offers free guidance to Danish companies that want to export goods or services to other EU-countries. The centre helps clarify relevant national rules and requirements. Business in Denmark assists foreign companies that are interested in operating in Denmark.

Seventeen European nations are cooperating in the construction of Europe’s largest planned Research Infrastructure to be built in Lund, Sweden; the most powerful neutron source that enables new unique research. Around 2500 researchers will use ESS each year when the facility is fully operational in 2025. esss.se

The Danish Business Authority

The Trade and Investment Promotion Section of Polish Embassy helps Polish businesses and assists foreign businesses looking to buy goods and services in Poland or locate their activity in our country. West Pomerania is the region located at a distance of only 281 km from Denmark. There you can find everything you need to start doing business - good location, easy access, well-educated workers and regional specializations such as metal-machine industry, maritime and logistic, bio economy, services.

Sika is a successful global company with a leading position in the building sector and the automotive industry. The future success of Sika is not only dependent on pursuing the right strategy, but is just as much based on the trust and dedication of all employees.

Roskilde University (RUC) is a state university founded in 1912 with the objective of setting new standards in educational principles by breaking with traditional university practice and embracing student involvement. Still today, the characteristic educational principles of Roskilde University are interdisciplinary, involving projects and group work; it is known for its different approach to education and research, and for educating graduates who are highly demanded by employers for their unique competences.

AutoCentro is an car dealership and workshop with over 30 years of experience in both passenger car and commercial vehicles. We have locations on Lolland, Falster and Zealand. Our competent staff and high standards is your guarantee of a fast and reliable service, and we have a large fleet of rental cars and LCV’s available. You will find us 1 km from the construction site right by Exit 50.
MAQS Law Firm is with its seven offices in five countries a strong independent Baltic Sea law firm. All of our offices work closely together in order to meet all of our clients’ need for legal advice in this region. Our German Nordic Legal team in Copenhagen consists of six lawyers who are educated and have worked in both Denmark and Germany and have great knowledge of both Danish and German law and business.

Schneider Electric

As a global specialist in energy management with operations in more than 100 countries, Schneider Electric offers integrated solutions across multiple market segments, including leadership positions in Utilities & Infrastructure, Industries & Machines Manufacturers, Non-residential Building, Data Centres & Networks and in Residential. Focused on making energy safe, reliable, efficient, productive and green, the Group’s 140,000 plus employees achieved sales of 24 billion euros in 2013.

Netværket SYD

Netværket SYD is a dynamic networking, sales and marketing platform, which helps small and medium-sized contractors to improve their chances of winning future public and private tenders. The consultancy services consist of facilitating a fast growing network of subcontractors with supply monitoring, network and relation based sales and marketing assistance in order to improve their job opportunities.
DANSK INDUSTRI – CONFEDERATION OF DANISH INDUSTRY

The Confederation of Danish Industry (DI) is the strong voice of corporate Denmark. DI works to provide the best conditions for Danish businesses in order to improve the opportunities for growth and overall competitiveness. DI is a private organization - funded, owned and managed entirely by its more than 10,000 member companies. Membership of DI is voluntary and members cover virtually all sub-sectors of the economy.

DESY

DESY is one of the world’s leading accelerator centres. More than 3000 guest researchers from 40 countries are attracted to DESY each year to explore the microcosm in all its variety. DESY cooperates with industry and business to promote new technologies that will benefit society and encourage innovations. This also benefits the metropolitan regions of the two DESY locations, Hamburg and Zeuthen near Berlin.

EMBASSY OF LOLLAND-FALSTER

Embassy of Lolland-Falster main purpose is to brand the region of Lolland-Falster as an attractive tourist destination and as an attractive place to live and/ or establish a business. The embassy is a part of Business LF which is the region’s business promotion agency. The embassy is a part of Business LF which is the region’s business promotion agency, established to provide one point of contact to the municipalities of Lolland and Guldborgsund.

EUROPEAN COMMISSION REPRESENTATION

The European Commission Representation is the Commissioner’s official voice in Denmark. We are charged with communicating on EU affairs at both national and local levels, to the media as well as to organisations and the general public. We also gather information of various political, social and economic developments in Denmark, in order to keep the Commission headquarters in Brussels appraised.

EUROPEAN PARLIAMENT INFORMATION OFFICE

The European Parliament Information Office is located in the European House in Copenhagen. We aim at enhancing the visibility of the legislative role of the European Parliament and its members. Visit our webpage: www.europarl.dk

GERMAN-DANISH CHAMBER OF COMMERCE

The German-Danish Chamber of Commerce promotes and strengthens the bilateral economic relations between Germany and Denmark. A team of experts assists particularly small and medium-sized companies with all questions surrounding export activities in both countries. The Chamber is the largest German-Danish networking platform for more than 600 members firms. www.handelskammer.dk

GREEN STRING CORRIDOR

The Green STRING Corridor project was launched in December 2011 and is financed by the Interreg IVA Oresund Programme and brings together 12 partners from the Oresund region. The aim of the project is to promote the potential of innovative transport and logistics solutions for developing a green transport corridor between the Oresund Region and Hamburg. The project sets out to facilitate cooperation between the business sector, research institutions and public authorities in the STRING corridor.

INNOBYG

InnoBYG is the Danish innovation network of sustainable building and construction co-funded by The Ministry of Higher Education and Science. InnoBYG brings the industry together across professional competency and facilitates the development of the building and construction industry by addressing a number of societal and technical challenges. www.innobyg.dk

MEP BALTIC SEA REGION PROGRAM

The MEP Baltic Sea Region Program is a non-partisan leadership program for youth in Estonia, Denmark, Iceland, Finland, Germany, Latvia, Lithuania, Poland, Norway, Russia, and Sweden. The aim of the MEP Baltic Sea Region program is to develop interest and skills in addressing high-level international issues jointly among high-school students in the 10 countries around the Baltic Sea/North Atlantic. The program is a training ground for future leaders and politicians. www.mepbsr.org

OSTSEE-HOLSTEIN-TOURISMS

Ostsee-Holstein-Tourismus e.V. is the regional tourism organisation for Kreis Ost-Holstein, Plön, Rendsburg-Eckernförde and Schleswig-Flensburg. The aim of OHT is to strengthen and promote tourism in the area, and in co-operation with its members to carry out and support development activities. www.ostsee-schleswig-holstein.de

PONTIFEX-CROSS BORDER

The Pontifex-cross border project focuses on employee trans-border mobility. The project exposes the factors obstructing free movement for employees in Region Sønderjylland-Schleswig, highlighting both legal and practical implications for mobility across the Danish-German border. The barriers which trans-border employees face are in general differential taxation and social security structures for the two regions. The project is domiciled in the regional office in Padborg under Region Sønderjylland-Schleswig.
REGION ZEALAND
Region Zealand is a political organization enabling welfare benefits and development. Region Zealand plays a central role in a network of cooperating partners, who work for a dynamic and coordinated development throughout the region; for business, education, urban development, public transport and the environment.

THE DANISH AGENCY FOR SCIENCE, TECHNOLOGY AND INNOVATION
The Danish Agency for Science, Technology and Innovation is a part of the Ministry of Higher Education and Science. The agency is responsible for ensuring that Denmark continues to be one of the world’s leading research nations. This implies in particular an efficient use of public investment in research, technology and innovation.

THE SCANDINAVIAN 8 MILLION CITY
3 countries, 4 metropolitan cities, including 2 capitals; this is The Scandinavian 8 Million City. The partners are the majority of the local and regional authorities as well as three government agencies in the corridor between Oslo, Gothenburg and Copenhagen. The Vision for 2030 is a high speed rail link that will physically connect the 8 million inhabitants and contribute to making this mega-region one of the world’s most competitive. The Scandinavian 8 Million City is co-funded by the EU.

TOURISM INNOVATION MANAGEMENT FEMHARNBELT PROJECT
The Tourism Innovation Management Fehmarnbelt Project, TIM Fehmarnbelt, is a cross-border business-to-business tourism co-operation under Interreg IV A. The aim of the project is to inspire the tourism sector to develop innovative business ideas, structures, and cross-border co-operations, so that we can strengthen the Fehmarn Belt Region from a tourism perspective.

TRANSPORT INNOVATION NETWORK (TINV)
The Transport Innovation Network helps to strengthen the Danish transport and logistics business competitiveness and technological leadership in order to increase growth and overall job creation in Denmark. We support general efficiency and green transformation of the Danish logistics and transport sector and facilitate knowledge exchange between sectors. We work across the industry and thus represent all modes of transport.

VISIT EASTDENMARK
Østdansk Turisme (Visit East-Denmark) is the regional tourism development organisation working for creating financial growth and employment in the tourism sector in Zealand, Møn and Lolland-Falster through value chain co-operation, initiation and facilitation of innovative product development, transfer of knowledge and marketing.

WONDERFUL COPENHAGEN
Wonderful Copenhagen is the official tourism-, event- and convention organization for the Copenhagen capital region. We communicate, market and develop Copenhagen as an attractive and liveable destination 365 days a year through events, conventions, business networks and marketing campaigns, in close collaboration with more than 300 private and public partners in the region.
